

## Domestic Violence: Roles of Landlords

### *Project Report now available*

In 2017, Centre for Public Legal Education Alberta undertook a project to develop resources to help landlords and property managers prevent and reduce the severity of domestic violence incidents on their premises. The final project report, *Domestic Violence Resources for Landlords and Property Managers*, is now available on CPLEA's web site at [www.cplea.ca/research-project-reports](http://www.cplea.ca/research-project-reports). Of particular interest are the comments of landlords on the kinds of information they would find most helpful. Those findings shaped the *Domestic Violence Toolkit for Landlords* which is now also available on the CPLEA web site at <https://www.cplea.ca/publications/family-law/#domestic-violence-toolkit-for-landlords>
